

Tooltip

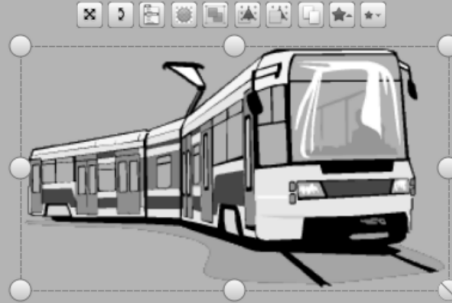

Mouse over an object to show
its label.

1. Choose an object you want to label.

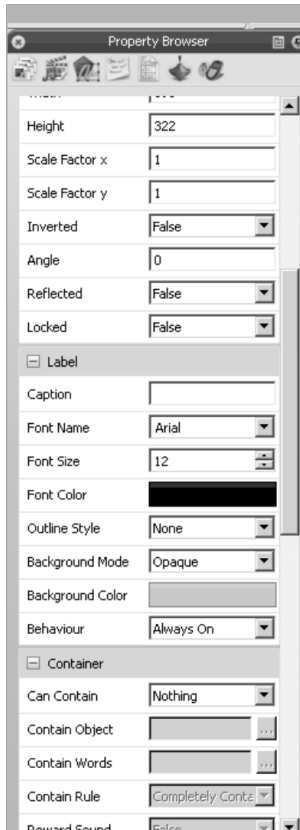

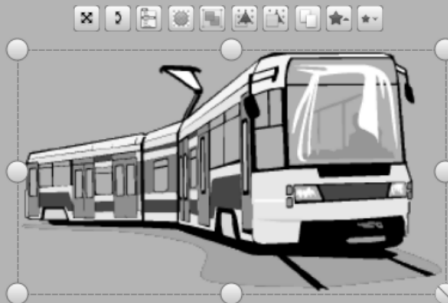

2. Highlight your object and open the Property Browser

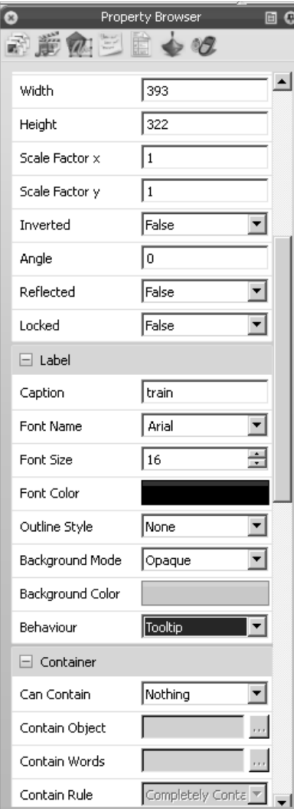

Page 3

3. Go to the Label section of the Property Browser.

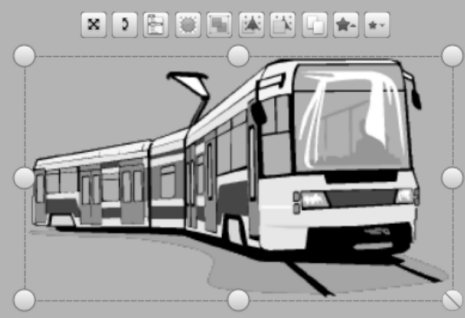

Page 4

4. In the label section:

- **Type a caption;**
- **Adjust the font: style, size and color.**
You can also adjust the background color.
- **In the behavior section, choose "Tooltip"**

Now, when you mouse over the object, the label appears. You can drag the label to a different position near the object, if desired
