Rainbow	\$2.00	\$1.50	Heirloom / 2 lbs. / 90 days / Full of Flavor / Indeterminate

**Determinate Tomatoes** are compact "bushy" plants that usually die after their crop of fruit. All the tomatoes usually come in at one time (1-2 week span). They are well suited for containers and require very little staking.

**Indeterminate Tomatoes** are vines and usually continue to produce fruit until frost and require staking for support.
